

EDF and Lemer Pax have concluded a new partnership

The contract, signed at the beginning of August 2014, for the biological protections, establishes the referencing of the **Lemer Pax** innovative products EDF central purchasing body:

- NOVABANDE® and NOVABANDE®-T
- NOVATUBE® and NOVATUBE®-T

In response to a call for tender in November 2013 for biological protections, the French National Centers for Electricity Production (Centre National de Production d'Electricité – CNPE) can now directly order these products to **Lemer Pax**.

Lemer Pax, partner of the CEA since it was founded, designs and produces radiation protection equipment ranges designed for the medical world, research, industry and nuclear protection.
